

New Lenovo 4GB Essential Memory Key & price reductions on other memory keys

Announcement date: 24 June 2008

Lenovo is announcing an addition to our range of Essential Memory Keys. The new USB 2.0 Essential Memory Key — 4GB flash storage device lets users share data easily between their notebook and desktop systems or with others. With 4GB capacity this memory key is ideal for business colleagues to share large files without taking up network bandwidth.

At the same time, Lenovo is announcing price reductions on our existing range of Essential and Security Memory Keys.

Highlights

The Lenovo USB 2.0 Essential Memory Key — 4GB is a thumb-size, lightweight, USB flash memory storage device that lets you share data between notebook and desktop systems with a functional USB port.

USB 2.0 Memory Key includes:

- Very small form factor
 - Approximate width: 20 mm
 - Approximate length: 60 mm
 - Approximate height: 9 mm
- Approximate weight: 0.01 kg
- Commemorative Lenovo Worldwide Olympic Partner logo (until August 2008)

GB = 1 billion bytes when referring to storage capacity; accessible capacity may be less.
